2023 Theme: The Power of Play

With interactivity being one of the enduring themes of the Canal Convergence, concepts and acts of play have always had an important role in the public's experience of the event artworks. For 2023, Scottsdale Arts is taking the "power of play" concept to the next level by commissioning large-scale, light-based, temporary public artworks that require acts of play or speak to play's ability to unite people across all ages, genders, and cultures through shared experience.

Over the course of 10 nights, visitors will experience the following:

- Large-scale, light-based public artworks and augmented reality artworks on view at the Scottsdale Waterfront.
